

Patient Safety & Risk Solutions

We believe a strong risk management program reduces harm to patients and protects providers from liability. That's why our team works so hard to help you see potential safety issues, create risk strategies, and measure improvement.

CONSULTING

Our experienced risk consultants provide timely, and meaningful, support. Consultations are available via phone or email for your convenience. Services include:

- Advice on risk issues, questions, or concerns
- Assessments, gap analyses, and policy review to identify and improve areas of risk
- Resources by specialty and topic

EDUCATION

You can take advantage of webinars, educational programs, and risk courses that focus on prevalent or emerging issues.

SOCIAL MEDIA

You have on-the-go access to risk information, tools, and announcements via our Twitter feed [@MedProProtector](https://twitter.com/MedProProtector).

ASSESSMENT TOOLS

Various assessment tools for clinical and high-risk areas are available. At your request, a risk consultant will review your results with you and provide additional insight and direction.

DATA ANALYTICS

Leveraging our extensive claims data, we help you stay aware of major risk trends in your specialty — including claim frequencies, allegations, and causes. Analysis of claims data also allows us to develop targeted programs and tools to help you minimize risk.

Online Resources & Publications

You can access our broad array of risk resources online at medpro.com/dynamic-risk-tools. You'll find:
